

Make your own flip book in the Maker Space!

Find the kinora device. How do you think it works?

Look closely, without touching, at this artwork. How many layers can you see?

 What do you see in the foreground:

 Mid-ground:

 Background:

Write the name of your favorite animated movie:

These are called "Cels" short for "Celluloids" Artists liked drawing on the see through layer because they could lay it over a background, saving them from having to re-draw the background every time.

Did you notice that some of the cartoons are drawn on a shiny see through layer?
 YES NO

Early animations paved the way for the cartoons and movies we love today. Who are your top 3 favorite cartoon characters?

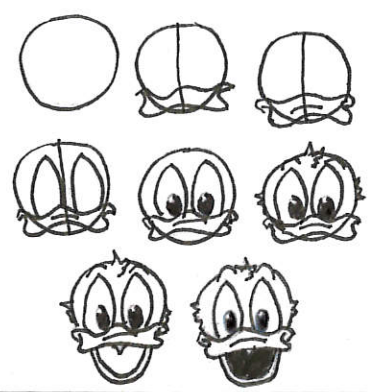

"Moving Pictures: Early Animation and its Influence" Young Visitor's Guide

What stands out to you about this artist's work?

Draw Donald Duck's Face:
 Follow the steps by drawing the shapes you see.
